

Route 169 Four Bridges Project FACT SHEET

The Project

This bridge project will replace the bridges at Cappell (Ke'pel) Creek, Mawah Creek, Rube Ranch Creek, and Martins Ferry.

Benefits

The new bridges will be wider with improved shoulders and bridge approaches will be widened and paved. Metal beam guardrail will be installed at bridge approaches and the completed bridges will include a unique Yurok tribal design.

Project Status

The project contract has been awarded and the project is currently under construction.

Project Costs

Total project costs are \$15 million.

Project Schedule

Begin Construction: September 2009

Project Completion: Summer 2012
